LED Bulb

High-quality, dimmable LED Bulb with Z-Wave control built right in.

Intelligent, Z-Wave lighting is finally made simple.

With LED Bulb from Aeotec, Z-Wave lighting control moves from the hard-wired switch and direct to an easily installed bulb. Easy is the key word. Easy to integrate. Easy to install. Easy to operate. Easy to dim. LED Bulb removes all the compatibility issues that are a part of other Z-Wave lighting solutions, building all the control and technology right into the bulb.

And it does so at a very high quality. LED Bulb outputs perfect pure white light. That perfect quality light is measured at 750 lumens and is completely dimmable making LED Bulb easy to install and beautiful to behold.
